# FISHING ON SHTYKOVSKIYE PONDS

Fishing is the word, that means the whole world for many people on the planet. From the olden days pisciculture was one of the most important trades. And it is due to this trade people got carried away by this. And the name of this hobby is fishing! The main feature of fishing is that each person can find something interesting and captivating in it. Each person, who has never tried fishing, must do this. Only by fishing one can understand the saying: one cannot catch fish from the pond without making efforts. We offer visiting Shtykovskiye ponds. This is a family park, which is located in picturesque valley of Artyomovka river, 40 minutes drive from Artyom town. The park is open all year round without any breaks and days off.

There is a lot of fish in this lake. It is easy to see it. One can even hear it, strangely enough. One can throw a piece of bread and wait a bit. Schools of fish start pinching the soft part of bread, making smacking sounds. To catch fish one should have tackle and some skills. You can bring fishing rod with you or rent it. You can catch carps, tolstolobiks and sazans. It is up to you. You can let the fish go, take it with you or bake it here.

# BATH

Russian bath is truly peoples' invention.

Russian bath is an essential conception of a truly Russian person.

Bath means health first of all! Body rejuvenation, muscles relaxation and rest for nervous system. This is what Russian bath can give you. It enables you for the time being to break free from the fuss of life and enjoy calmness.

«Bath sweats out, bath rules, bath will set all right»
